A Passion, A Conviction

AT LES CANALOUS, OUR STORY BEGAN ON THE WATER — AND IN THE FAMILY.

First my grandfather René, then my father Claude, shared their love of canal and river cruising long before I took the helm myself. Even now, that family spirit guides everything we do — from the way we work with our team to the way we welcome you on board.

We don't just welcome you as a guest but as a friend. We love hearing about your dreams, your memories, and your cruise plans. Above all, we want you to enjoy a holiday that feels truly yours.

Cruising with Les Canalous means slowing down and savouring the moment: watching the sun rise from the deck, wandering through a local village market, or seeing the children proudly steer the boat and master the locks like seasoned captains.

It's also about travelling more responsibly. We're modernising our fleet with electric engines, HVO fuel, and sustainable equipment to reduce our impact. We're introducing smart, connected services to make your trip easier — while keeping the essentials: simplicity, warmth, and the pleasure of seeing you year after year.

With us, every departure begins a new

story, and every return is a shared memory. Welcome aboard — and here's to a wonderful holiday !

Alfred Carignant,

President of Les Canalous

5 good reasons to cruise with Les Canalous

1 NAVIGATE IN COMPLETE FREEDOM, WITHOUT A LICENCE

Climb aboard, take the helm... and let yourself be carried away. No experience necessary: here, freedom is within everyone's reach.

4 CHOOSE MORE RESPONSIBLE TOURISM

Electric fleet, low-carbon fuel, sustainable equipment... Sail, yes — but with respect for our surroundings.

2 LIVE IN TUNE WITH NATURE

Village markets, the lapping of the water, gently passing landscapes... Each stopover is an invitation to slow down and savour the moment.

5 TRUST A TEAM THAT IS CLOSE TO YOU

A family business for over 40 years, we put our heart and soul into supporting you before, during... and after your trip.

3 CRUISE WITH YOUR LOVED ONES

Whether with family, friends or as a couple, our boats are designed for sharing special moments together, far from the hustle and bustle.

You can park your vehicle free of charge in public car parks at most bases. At some bases, there is a locked paid car park, which may or may not be covered.

Preparing **my** trip

You have chosen your region, your boat and your extras, and your reservation is now made. Less than one month before departure, your voucher and your logbook in hand, it's time to plan your journey! The following pages will provide you with valuable information to help you in this preparation, so please read them carefully before you go, and contact your travel agent for further information..

WHAT SHOULD I PACK?

Let's start with the case itself: ideally plan to use flexible bags such as sports bags: aboard a boat, space is limited and rigid suitcases may take up too much space during your stay. We recommend that you take light clothing (shorts, swimsuits) and some rain gear and warmer clothes depending on the season. Tennis shoes are required, dress shoes are not advisable as they are inappropriate for boats and so can be dangerous.

Canalous boats are fully equipped, you'll find that you need to pack little in your bag!

Essentials: your camera, a torch, binoculars, a deck of cards and something to read.

RECEPTION AT THE DEPARTURE BASE

Whether you arrive by car, train or plane, the bases are ready to welcome you. To help you reach your starting point, an access plan will be sent to your agency with your voucher. On arrival, the base manager and his team will offer you their warmest welcome. No need to arrive early as most boats leaving in the afternoon are returned to the base the same day. We must therefore allow the necessary time for our team to prepare your boat before departure. Why not plan to arrive an hour before the scheduled time? This will leave time to stock your boat from the local shops.

The paperwork (license, inventory, installation) and explanations about how the boat works, take time: approximately 2 hours.

DEPARTURE AND RETURN TIMES

| | Day of departure | Embarkation times | Return timetable |
|------------------|---|--|---|
| Week days | Departure Day: Monday, Tuesday, Friday or Saturday, depending on the base and return
Monday, Tuesday, Friday or next Saturday

Italy: between 3 pm and 6 pm | Return on Friday at 9 am |

READY TO SET SAIL!

You do not have a sailing license and are worried about driving the boat? Rest assured! The handling is quite simple and our teams on the bases will take the time to show you how the different equipment works and introduce you to the maneuvers and docking. The boat works with two commands: a throttle lever with two positions (front and rear) and a wheel to steer: you see, it's simple!

Travelling at an average speed of 6kmph. enjoy your holidays with a peaceful soothing rhythm, gently travelling on the water. Enjoy the scenery from a new perspective and feel free to punctuate your cruise with a few stops, gourmet, historical or sports. There will be something for everyone!

Don't forget your cameras : : You won't want to miss herons, black kites, egrets, mallards, kingfishers...!

Important : during your cruise, you sometimes come across mariners for whom sailing is their livelihood. They always have priority, it's the rule!

TIP :

do not anger fishermen. When you come across them on the banks, remember to slow down in order not to create too much backwash, and move over a little so as not to break their lines..

WHEN YOU REACH YOUR FIRST LOCK, ! DON'T PANIC!

The lock is simple, and not dangerous, as long as the basic safety rules are followed. You will usually be assisted by the lock keeper, who will appreciate a helping hand if you can, for the operation of the doors and sluices, when they are not automatic. In France the locks are free. They are normally open daily from 9am to 7pm.

Important :

times may vary according to season. Some bank holidays are not worked by the lock keepers (Easter Sunday, 1 May, 14 July, 1 November) Check with your travel agent.

MANUAL LOCKS !

On some waterways (including the Charente, Lot upstream and the Seille), locks are manual. It is you who maneuver through them, so allowing you greater freedom of navigation, without time constraints, from sunrise to sunset. These cruises are more physical, however, and are not recommended for a first timer, for persons who have difficulty moving, or who have young children with them.

Frequently Asked Questions

You can find, on the following page, the practical questions most frequently asked by our clients, and their answers :

How many people can board?

Our boats are designed for 2-12 people depending on the model. A minimum of one adult, with a person of at least 16 years, is required for all rentals. Babies and children, even toddlers, count as one person.

What are the conditions for one way navigation?

As conditions can be uncertain, one-way trips and their direction are confirmed 48 hours before boarding. A supplement will be charged for this option. One way trips are not possible with a fleet of more than 2 boats.

What supplements are required in addition to boat hire?

The only compulsory supplement is the hourly navigation charge. This will be invoiced to you on your return according to the actual number of

engine hours used. This fee varies according to the category of boat and includes oil and fuel consumption. On certain bases, it is possible to purchase a package before departure. Ask your travel agent for details.

Are the boats equipped with air conditioning and heating?

All boats are equipped with forced-air heating, guaranteeing comfort whatever the climate. Only the Premium fleet boats are equipped with air conditioning, which can only be used when you are plugged in at the quayside. This is limited to the lounge and cools the air by 2 or 3 degrees.

Is there electricity on board?

All boats have electricity, so if you sail for 4 to 5 hours a day, you'll be able to recharge the batteries sufficiently for your needs. There is at least one

12V socket. Classic and Premium fleet boats have at least one 220V socket that can be used when the boat is plugged in at the quayside. Electricity should be used sparingly on boats. Breathing apparatus: Pharmacies can supply you with a 12V apparatus with a 12V socket, which consumes very little electricity. Ask your supplier.

What happens in case of floods or drought?

Some rivers and some canals are prone to flooding or water short ages, mainly in spring and autumn. These events may require us to change the departure base and your cruise to another waterway or offer you to postpone. In all cases, changing the departure base or replacement of the itinerary do not constitute grounds for cancellation or refund of your cruise.
