

OUR ELECTRIC BOATS

LaPéniche S

Available in Alsace-Lorraine, LaPéniche S can accommodate up to 10 people on board with its 5 double cabins and 4 bathrooms. It has a hybrid cockpit with an electric sunroof. It's a 100% electric model, and perfectly silent. The cruising range is around 5 to 6 hours, which represents a full day's autonomy. VNF has installed fast-charging stations along the route, making it possible to charge the batteries in no more than 2 to 3 hours. Recharging can be done during a lunch break, a visit or walk, or overnight. Recharging will allow the batteries to be fully recharged to ensure the necessary electrical autonomy. The charging points can only be used by electric boats. The charging points are easy to use via a touch screen (different languages are available: French, English, German and Spanish).

A compulsory recharging package of €55/day guaranteeing priority access to the charging points will be invoiced at the time of booking, i.e. €385 for a week.

Throughout your stay, you will also be able to top up at the 'classic' docking stations in the ports (additional charge according to current rates).

LaPéniche F

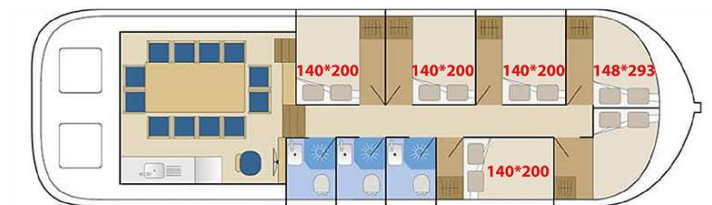

Available in East Burgundy from **Pontailier-sur-Saône or Louhans**.

LaPéniche F, with its 6 double cabins and 3 bathrooms, can accommodate a maximum of 12 people on board. It has a hybrid cockpit with an electric sunroof.

This model offers electric, silent cruising for 3 hours a day.

The rest of the time, there's no need to recharge: the on-board generator (or genset), powered by biofuel, recharges the batteries at the same time as it powers the electric engine.

A compulsory recharging package of €55/day will be invoiced at the time of booking, i.e. €385 for a week.

Tarpon 49QP

Available in West Burgundy from **Digoin or Châtillon-en-Bazois**

The Tarpon 49QP from our Premium range, with its 5 cabins and private bathrooms, can accommodate up to 12 people on board. It has a double interior and exterior helm station. This model offers electric and silent cruising for 3 hours a day.

The rest of the time, there's no need to recharge, as the on-board generator (or genset), powered by biofuel, recharges the batteries at the same time as powering the electric engine.

A compulsory recharging package of €55/day will be invoiced at the time of booking, i.e. €385 for a week.

LesCanalous

LaPéniche eXP

Presented at the BOOT Düsseldorf trade fair in January 2025, our new LaPéniche eXP model is an innovative river boat combining energy autonomy, comfort and respect for the environment. This boat is available for hire with a **compulsory skipper**.

This model combines an electric motor with an on-board energy production and storage system. It has a 40kW electric motor, an 80kWh battery pack, solar panels and a generator running on biofuel. These various components provide a range of 15 hours at 8 km/h, the equivalent of 3 days' sailing without recharging.

There is also a water management system on board, optimised to limit environmental impact: a 1,200-litre tank for drinking water fed by a filtration system that draws water directly from the canal. Wastewater treatment is integrated on board, with a capacity of 300 litres per day.

This boat also has (like the models in our LaPéniche range) a hybrid cockpit with electric sunroof and adjustable pilot seat.

The boat

Suitable for 4 to 6 people max.

This model is configured like LaPéniche P with a large owner's cabin with double bed and private bathrooms, and a second 'guest' cabin with a double bed (or 2 single beds) and private bathrooms. Additional sleeping accommodation: a single berth in the gangway and a sofa bed that can be converted into a double bed in the saloon. A sanitary area with shower, washbasin and WC is also available in the saloon.

The living room has a beautiful kitchen area, a large table with chairs, a steering area with electric sunroof and access to the outside deck at the bow and stern of the boat.

Price: from €4930 to €7901 / week (skipper included)

Tailor-Made itineraries

Unlike our other houseboats, this one is hired with a **compulsory skipper** on board. The itineraries is on request from our various Canalous bases in France (subject to availability): it can be a round-trip or one-way itinerary that we already offer, or a made-to-measure one-way trip (example: Digoin - Louhans / Pontailier-sur-Saône - Carnon, etc.).

Please contact our sales department for availability and a tailor-made rate.
