Mini-week : from Monday at 12 PM to Friday at 12h PM
Weekend : from Friday at 3 PM till Sunday at 5 PM

From 1 October onwards, sailing will still be possible. However, most marinas in Belgium and France will close from 30 September.

This means that boats will not be able to dock in ports to connect to electricity terminals or refill their water supplies during their stay.

We will, of course, take care of the water supply. Electricity can be recharged when the engine is running, but certain restrictions must be taken into account.

For example, a hairdryer can only be used when the boat is connected to the marina's electricity supply. Similarly, the coffee machine cannot be used when the engine is not running. Finally, the engine must be started at least three hours in advance in order to have hot water.
